

1. Fold along the dotted lines to create creases and then unfold
2. Fold the triangles to make a square
3. Turn over and fold each corner into the center
4. Fold in half again and into quarters
5. Put your fingers in to pinch and make opposite sides come together
6. Pick a type of Spacecraft. Then spell out what you pick by opening your fingers alternating. Look in and pick a top NUMBER of astronauts to send. Then count that amount. Now pick a bottom NUMBER for the AU distance of your object, the object you have travelled to is beneath the number!
